

[Lithuanian]: MN-26-023 Cable cutter

[Lithuanian]: Cable cutter for precise cable cutting

[Lithuanian]: Features & benefits

- [Lithuanian]: The ergonomic, two-component handle allows for long-term work without the feeling of fatigue, optimal power transmission and a secure grip
- [Lithuanian]: The opening spring opens the cutter blades after cutting, making the work easier and faster
- [Lithuanian]: Optimum blade geometry ensures cutting without crushing and deformation with minimum effort
- [Lithuanian]: The mounting handle allows you to attach a leash so that the cutter will always be within reach
- [Lithuanian]: The adjustable screw joint allows the blades to be precisely fitted
- [Lithuanian]: The opening blockade keeps the jaws closed, protecting them against damage and facilitating storage

[Lithuanian]: Applications

- [Lithuanian]: Application during electrical installation works
- [Lithuanian]: For cutting aluminum and copper single and multi-core cables

[Lithuanian]: Users

- Elektrikai
- Montuotojai
- DIY entuziastai
- Mechanikai
