

[Lithuanian]: MN-26-027 Cable cutter

[Lithuanian]: Cable cutter for precise cable cutting

[Lithuanian]: Features & benefits

- [Lithuanian]: The ergonomic, two-component handles allow for long-term work without fatigue, optimal power transmission and a secure grip
- [Lithuanian]: The precise, high-strength blade allows you to cut wires with a diameter of up to 13 mm or 60 mm²
- [Lithuanian]: Optimum blade geometry ensures cutting without crushing and deformation with minimum effort
- [Lithuanian]: The jaws made of forged steel and hardened to the level of HRC 55-60 ensure a long tool life
- [Lithuanian]: The sickle-shaped blades ensure a safe and accurate cut

[Lithuanian]: Applications

- [Lithuanian]: Application during electrical installation works
- [Lithuanian]: For cutting aluminum and copper single and multi-core cables

[Lithuanian]: Users

- Elektrikai
- Montuotojai
- Mechanikai
- Gipso tinkuotojai
- DIY entuziastai
